

## Club Competitions - a Quick Guide

For the full picture, please see the Competition Rules on the club website (under "Downloads").

### Projected Digital Images (PDIs)

All images must be presented as Jpeg files with a storage size of not greater than 1Mb. The colour space must be sRGB and image dimension 1400 pixels wide x 1050 pixels high. If an image does not fit these dimensions fully, we suggest that you fill the gap with black or grey shading.

The PDI file name should be composed of Competition Number, Title and Category e.g. 80-Robin on a Bush-Nature

### Prints

Prints must be mounted with the mount size not exceeding 40cm x 50cm (the standard size for L&CPU competitions). If a "window" mount is used, the print should be flush-backed (i.e. have a backing that is the same size as the overall mount).

For any print competitions, mark the back of the mount with Competition Number, Title and Category (but **not** your name). These can be put on a label if you wish.

### Categories

Throughout each season, there will be three Seasonal PDI and three Print competitions - on separate nights.

Each competition has the following categories (You may enter up to SIX images in each competition with no more than THREE images in any category):

*PDI Categories:* General Colour, Nature, Monochrome and Set Subject. There will also be a Beginners category (more details to be announced).

*Print Categories:* General Colour, Nature, and Monochrome.
