

Club Competitions - a Quick Guide

For the full picture, please see the Competition Rules on the club website (under "Downloads").

Projected Digital Images (PDIs)

All images must be presented as Jpeg files. The colour space must be sRGB and image dimension 1600 pixels wide x 1200 pixels high. If an image does not fit these dimensions fully, we suggest that you fill the gap with black shading.

The PDI file name should be composed of Competition Number, Title and Category (e.g. 80-Robin on a Bush-Nature).

Prints

Prints must be mounted with the mount size not exceeding 40cm x 50cm (the standard size for L&CPU competitions). If a "window" mount is used, the print should be flush-backed (i.e. have a backing that is the same size as the overall mount).

For any print competitions, mark the back of the mount with Competition Number, Title and Category (but **not** your name). These can be put on a label if you wish.

Categories

Throughout each season, there will be three Seasonal PDI and three Print competitions - on separate nights.

Each competition has the following categories:

PDI Categories: (a) *Advanced:* (3) - General Colour, Nature and Monochrome. (Overall max of 4 images with no more than 2 in any one category.); (b) *Beginners:* one Open Category (max of 4 images).

There will now be a separate Set Subject PDI competition open to Advanced & Beginners.

Print Categories: (3) - General Colour, Nature, and Monochrome. (Overall max of 6 prints with no more than 3 in any one category.)
